

15th Euromicro International Conference on Parallel, Distributed and Network-based Processing

PDP 2007

Naples, Italy, February 7-9, 2007
Conference Center "Federico II" - Via Partenope, 36

AIMS and SCOPE

The Fifteen Euromicro Conference on Parallel, Distributed and Network-based Processing covers all the fields of high-performance computing, from advances in scientific and engineering applications to new proposals in programming and problem solving environments, models, languages and architectures.

The conference provides a forum for presentation of all the issues related to parallel, distributed and network computing.

PROGRAM CHAIRS

Pasqua D'Ambra

Mario R. Guarracino

ICAR-CNR

High Performance Computing and Networking Institute at Naples
National Research Council - Italy

ORGANIZING COMMITTEE

Gennaro Della Vecchia

ICAR-CNR

Daniela di Serafino

Second University of Naples

Ivana Marra

ICAR-CNR

Francesca Perla

University of Naples "Parthenope"

INVITED SPEAKERS

Michael A. Heroux

Sandia National Laboratories

Numerical and Applied Mathematics Department

Computation, Computers, Information and Mathematics Center

Domenico Talia

DEIS

Faculty of Engineering

University of Calabria
